PressClean Wet Wipes

PressClean viscose wet wipes

These extremely strong and powerfully wet cleaning cloths are ideal for removing heavy to very heavy industrial soiling such as oil, grease and fat, as well as inks, adhesives, sealants, etc.

They are highly absorbent and do not leave a sticky feeling.

The cloth does not smear.

Contains **NO** solvents and is therefore free of symbols.

In many cases, it gives a better result than washing with water and soap.

Caution when used on rubber parts of a printing press

Innovation	AtéCé a major global washcloth converter leads the industry with innovative washcloth developments. Our commitment is to continue developing and delivering innovative products that improve quality and printing time on press.
Technology	PressClean Wet Wipes are being produced with the most advanced production technique available and is the next generation in Wash cloth.
Reliability	The consistency and quality of our new Washcloths and improved control gives a superior result on press.
Value	Improvements provided by PressClean improving production time and reducing down-times on press.
Ecology	PressClean Wet Wipes are another innovation from AtéCé Graphic Products.
